

# THW-Jugend

spielend helfen lernen

1. We are the youth organization of the Federal Agency for Technical Relief (Technisches Hilfswerk - THW), where all girls, boys and interested adults are welcome and may participate.
2. We are curious and enthusiastic, and we want to experience and apply technology together.
3. We practice team work, friendship and camaraderie in our youth groups - as we all do at the Federal Agency for Technical Relief.
4. We grow with our tasks and we all learn from each other in our community.
5. We strengthen the weak and help because of persuasion and responsibility.
6. We deal with each other respectfully and fairly and we stand for democracy and equality.
7. We encourage everyone to participate and contribute to our youth organization.
8. We commit ourselves to international understanding and friendship.
9. We deal selflessly and unselfishly in strengthening the already existing volunteer force in the youth organization and in promoting the development of every member.
10. We are tolerant, ready to help, open-minded and proudly part of the THW-family.

## SELF-CONCEPTION
